```
The presented documents of each listed vessel were compared with each other, with the vessel's
    declaration and with the supplied reference lists under ruleset cover-witness/1

Result: 2 vessel(s): 1 hold together, 0 with exceptions, 1 with red flags

What this pack does not establish:
  - Findings are about consistency between the presented documents, the declaration and the supplied
    reference lists; this file does not establish that any document is genuine or forged.
  - The insurer, registry, MMSI-digit and history lists are as the customer supplied them; an
    out-of-date list gives out-of-date results.
  - Cover itself (whether the insurer will pay) is not checked: confirm it with the insurer.
  - Certificate requirements checked are the CLC 1992, Bunkers 2001 and Nairobi WRC thresholds as
    declared by the vessel (cargo, gross tonnage); national requirements may add more.

Intended users: the terminal, port, agent, charterer or authority that requested the documents
Reliance: Supports vetting and follow-up questions to the vessel and its insurer. It does not decide
    whether cover exists.
